From the Chairman's Desk

In the changing and competitive environment of the 21st century, organization needs performance enhancing competencies, i.e., knowledgeable, dynamic, self-driven and result orientated professionals with positive attitude

To meet professional demands, we at IIBS, constantly design and redesign the programs and curriculum as suited to our corporate partners in order to develop the students' capabilities in such a way that would be relevant and compatible for the ever changing needs of the corporate world. Here at IIBS, through our innovative, experiential and flexible learning modules, we metamorphose ordinary students into great professionals.

Professional learning is about dealing with business realities. At IIBS we provide high quality academic inputs and holistic learning to all our students and try to bring out the best of their persona, so that they will be self driven in the path of success.

IIBS value system and culture is friendly and open. We insist that our students learn result driven attitude and discipline. We aim to promote freedom with accountability, equality, fraternity and uncompromising zest for performance with social responsibility, which involves learning beyond the class room.

I welcome you to experience the superior professionalism and cross-cultural connection as you pass through IIBS and let the change begin within you.

With warm welcome!

NAAC (A-Grade)

NAAC Accredited with highest CGPA : 3.20

India has one of the largest and diverse education systems in the world. Privatization, widespread expansion, increased autonomy and introduction of Programmes in new and emerging areas have improved access to higher education. At the same time, it has also led to widespread concern on the quality and relevance of the higher education. To address these concerns, the National Policy on Education (NPE, 1986) and the Programme of Action (PoA, 1992) spelt out strategic plans for the policies, advocated the establishment of an independent National accreditation agency. Consequently, the National Assessment and Accreditation Council (NAAC) was established in 1994 as an autonomous institution of the University Grants Commission (UGC) with its Head Quarter in Bengaluru. The mandate of NAAC as reflected in its vision statement is in making quality assurance an integral part of the functioning of Higher Education Institutions (HEIs).

The NAAC functions through its General Council (GC) and Executive Committee (EC) comprising educational administrators, policy makers and senior academicians from a cross-section of Indian higher education system. The Chairperson of the UGC is the President of the GC of the NAAC, the Chairperson of the EC is an eminent academician nominated by the President of GC (NAAC). The Director is the academic and administrative head of NAAC and is the member-secretary of both the GC and the EC. In addition to the statutory bodies that steer its policies and core staff to support its activities NAAC is advised by the advisory and consultative committees constituted from time to time.

Recognition: A Commitment to Academic Excellence

IIBS is proud to be NBA accredited, a testament to our unwavering commitment to providing world-class education and fostering academic excellence. The NBA is a prominent body that ensures that academic programs meet rigorous standards of quality, innovation, and industry relevance.

What NBA Accreditation Means for IIBS:

NBA accreditation signifies that our academic programs, particularly in engineering, technology, and related fields, meet the highest national standards. It assures students and their families that the programs offered are designed to deliver a comprehensive education, preparing them for success in an ever-evolving global job market.

Being NBA accredited reaffirms our college's commitment to providing top-tier education, equipping our students with the knowledge and skills necessary to excel in their careers. This distinction ensures that our graduates are ready to make a positive impact in their chosen fields.

Blended learning environments include not only the physical presence of teachers and students but also the students' ownership and control of the time, place, setting, path, and pace at which their learning takes place in IIBS.

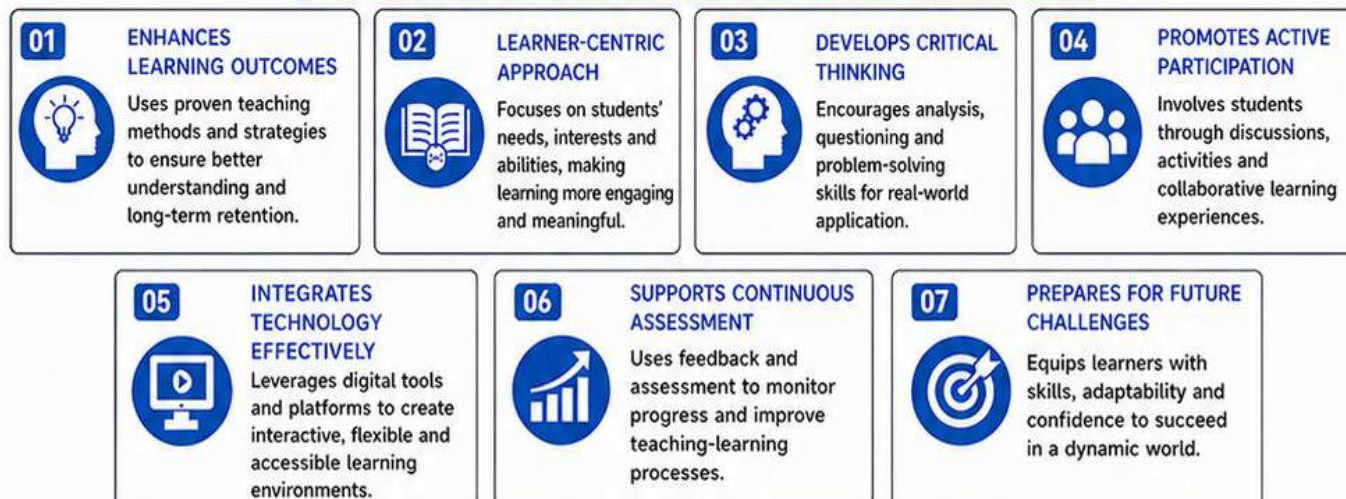

Pedagogy / Teaching Methodology

Pedagogy in IIBS defines the methods adopted for conducting teaching-learning sessions using various strategies and approaches adopted by professional team to ensure the fulfillment of the objective. Pedagogy is highly influenced by educational psychology and child

psychology. It is not just concerned with enhancing the methods of imparting education but also analyzing learners' responses. All in all, its primary objective is to develop effective learning experiences.

IMPORTANCE OF PEDAGOGY IN INNOVATION LEARNING

At IIBS, our pedagogy is designed to create effective learning experiences that inspire innovation, build competence and shape future leaders.

IIBS Finishing School (IFS)

"The true measure of a lady or a gentleman is not based on what they have, b

IIBS Finishing School aims at preparing the students to the corporate world with self-confidence and positive attitude towards any situation in their life. Creates a platform for the students to come out of their comfort zone and speak up confidently. It enables them to learn from their mistakes, learn to be independent, to build a team and adapt to the new team members and exchange their insights during team building.

IIBS Finishing School aims at improving the communication and listening skills which is the most important parameter to enter the corporate world by conducting activities like extempore and group discussions to bridge the gap in their vocabulary and communication. We also train students to handle conflicts and solve problems in the team by conducting team building activities

within the class to ensure each and every student participates and respects each team members decisions without any conflicts and misunderstanding.

We also ensure that students are well adverse with the needs of corporate world by training them on Grooming, Body language, confidence, positive mindset and attitude, Inter / Intra personal skills, resume building, organizing things, time management, content writing, letter writing – routine and the pleasant, etiquettes on power point presentation, hands on training on Excel and using formula on spread sheet, decision making, career counselling and managerial skills so that they will be well versed with the etiquettes of career building.

INDUSTRIAL VISITS

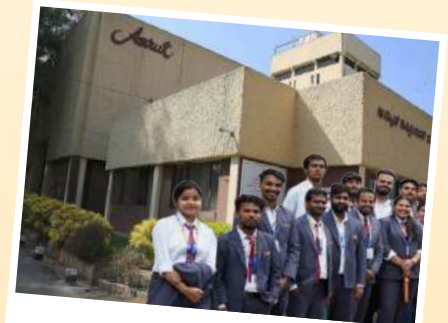

Industrial visits are a key component of management education, offering students practical exposure to real-world business operations. At IIBS, regular visits are organized to help students understand functions like marketing, finance, and human resources in a corporate environment. These experiences bridge the gap between theory and practice, making students industry-ready.
