- **Mock Tests are not a replacement of Preparation Books:** While MAT Mock Test is a very useful study material, it is not a replacement of preparation books. You should use good books for MAT preparation. Once you are familiar with concepts, only then take Mock Tests.
- **Not simulating real exam conditions:** You should always take mock tests in a quiet, with proper timing, to mimic the actual exam environment.
- **Skiping post-test analysis:** Don't just take the test! Review and analysis of the test is equally important. Review your mistakes, and understand why you got questions wrong to avoid repeating them.

- **Guessing blindly without strategy:** MAT exam has negative marking, so avoid random guessing. You can use elimination techniques or skip if unsure.
- **Focusing only on strong sections:** While it's tempting to keep practicing what you're good at, improving weak areas is key to boosting your overall score. So, take questions from all sections.
- **Ignoring time management:** Learn to divide your time wisely across sections to avoid getting stuck and missing out on easier questions later.
