So what is the lesson from toppers? Online coaching works best when it gives you structure and a benchmark against other aspirants. It does not replace your own practice and mock analysis. Choose one main platform, add a specialist course only for your weakest section, and use free YouTube content to fill gaps.

You need to check whether the coaching Institute has full length Mock Tests and can provide the same to you timely. Would the test series be in accordance to the CAT examination pattern? Answers to these questions must be sought and well analyzed before selecting the right online coaching.
5. **Get Student Feedback:** Apart from the above, gather the information as to what shall be the number of live sessions, which topic will have more classes, batch size, availability of Doubt clarification classes. To answer such questions, ask for its course module, take some already posted feedback- ask them to send a few feedbacks of different dates to assess the quality. This will help you going for the best available online preparation option.

6. **Be your judge:** There is a growing trend for online CAT classes as the aspirants find them more convenient but you will have to judiciously select the right coaching based on above parameters.
